EIGHTY-EIGHTH ANNUAL COURSE OF LECTURES

—OF THE—

MEDICAL DEPARTMENT

—OF—

DARTMOUTH COLLEGE,

HANOVER, N. H.,

Begins July 30, 1884.

MEDICAL FACULTY.

REV. SAMUEL C. BARTLETT, D.D., LL.D., PRESIDENT.

OLIVER P. HUBBARD, M.D., LL.D., *Professor Emeritus of Chemistry and Pharmacy. New York City.*

CARLTON P. FROST, M.D., *Dean, and Professor of the Science and Practice of Medicine. Hanover.*

EDWARD S. DUNSTER, M.D., *Professor of Obstetrics. Ann Arbor, Mich.*

HENRY M. FIELD, M.D., *Professor of Materia Medica and Therapeutics. Newton, Mass.*

PHINEAS S. CONNER, M.D., *Professor of Surgery. Cincinnati, O.*

LYMAN B. HOW, M.D., *Professor of Anatomy and Physiology. Manchester.*

PAUL F. MUNDÉ, M.D., *Professor of Gynecology. New York City.*

JESSE P. BANCROFT, M.D., *Professor of Mental Diseases. Concord.*

JOHN ORDRONAU, M.D., LL.D., *Professor of Medical Jurisprudence. New York City.*

LOUIS ELSBERG, M.D., *Professor of Laryngology. New York City.*

WILLIAM W. SEELY, M.D., *Professor of Ophthalmology. Cincinnati, O.*

WILLIAM T. SMITH, M.D., *Associate Professor of Anatomy and Physiology. Hanover.*

PROF. EDWIN J. BARTLETT, M.D., *Instructor in Chemistry. Hanover.*

ANNOUNCEMENT.

LECTURES.

The *Eighty-eighth* Annual Course of Medical Lectures will begin with an Introductory Lecture by Prof. J. P. BANCROFT, M.D., at 4:00 P. M., on Wednesday, July 30, 1884. The course will continue sixteen weeks.

The courses in Surgery, and Practice, will consist of at least sixty-six lectures each. The course in Anatomy and Physiology has been lengthened to ninety-nine lectures. The course in Chemistry will consist of lectures and work in the laboratory—each in such proportion to the other as may be judged adapted to give the best instruction. The courses on Obstetrics and Therapeutics will consist of at least forty-four lectures each. The course in Gynecology of at least twenty-two lectures. There will be shorter courses in Medical Jurisprudence, Mental Diseases, Ophthalmology, Laryngology, by specialists in those departments of medicine.

For the convenience of non-resident Professors, the lectures in Anatomy and Physiology, Surgery, Obstetrics, and Gynecology, will be delivered in the first half of the session. At the close of the several courses the candidates for graduation will pass their final examination by the Faculty. These examinations are written. After consideration by the Faculty the papers are retained for examination by the delegates from the State Societies of New Hampshire and Vermont, who will also further examine the candidates orally to determine their fitness to enter the Profession.

Clinical instruction will be given to as large an extent as circumstances will admit. Examinations will be made and operations will be performed *gratuitously* before the class.

TERMS OF ADMISSION.

Applicants for admission must be eighteen years of age, and unless already matriculants of some regular Medical College, or graduate of some reputable College, Academy, or High School, will be examined as to their fitness for entering upon and appreciating the technical study of Medicine.

They will be expected to be familiar with the elementary principles of Physics (Light, Heat, Electricity, etc.), on entrance.

EXAMINATIONS AND GRADUATIONS.

After the completion of two full years of the study of Medicine, shown by proper certificate, and of two full Courses of Lectures (one at this College), any student may be admitted, at the regular times, to an examination in Anatomy, Physiology, and General Chemistry. If satisfactorily passed, this will stand for these branches in the final examination. The Fee for this examination will be ten dollars, which at the final examination will be deducted from the Graduation fee.

Every candidate for the degree of Doctor of Medicine must be twenty-one years of age, and must give satisfactory evidence of good moral character. He shall have attended two full courses of Lectures on all the branches of Medical Science, at some regular Medical School, one of which shall have been at this Institution. He shall give satisfactory evidence that he has devoted *three full years* to his professional studies, under the direction of some regular Practitioner—the time spent at Lectures being included. He shall present evidence that he has dissected all parts of the cadaver, and shall pass a satisfactory written examination in Anatomy, Physiology, Surgery, Obstetrics, Therapeutics, Chemistry, Gynecology and Practice. No Thesis will be required.

There are two final examinations, namely, on Monday, June 23d, 1884, preceding the Annual Commencement of the College, and at the close of the Medical Lectures. All examinations are written.

EXPENSES.

LECTURES.—Matriculation (paid annually),	-	-	-	\$5 00
For the Course,	-	-	-	77 00
Graduation Fee (not returnable),	-	-	-	25 00
Chemicals and ordinary breakage,	-	-	-	3 00
Anatomical Material at cost.				

Students who have attended two Courses, one of them at this Institution, may attend the third on payment of the Matriculation fee ; of those who have attended two Courses at any other regular Institution, \$40 will be required in addition to the Matriculation fee.

Fees must be paid in full at the opening of the session.

RECITATIONS.

Recognizing the necessity of systematic instruction in the principles of Medicine, the resident members of the Medical Faculty have for several years given instruction in the different departments of medicine in the months intervening between the Lecture sessions, by daily Recitations. For the coming year the Course will begin on the 10th day of December and continue till the 20th of June, 1885.

This Course affords an excellent opportunity for the study of Anatomy with dissections, and Chemistry with work in the Laboratory. Also in the other departments of medicine daily recitations will be given during the term. This work is quite essential if the student would fully profit by the lectures. All the appliances of the Institution, in the way of plates, models, preparation, etc., are made available for students in this Course.

Students are admitted to the public courses of lectures in Dartmouth College. They have ready access to the Anatomical Museum, to the Stoughton Museum of Pathological Anatomy and the Cabinet of Materia Medica and Medical Botany, and to the Museums of Natural History and Geology. They also have the

privileges of the College Library on the same terms with students in the other departments of Dartmouth College.

RECITATIONS.—For the term, - - - \$40 00

Chemistry, extra, - - - - - 15 00

Anatomical Material, extra, at cost.

Table board from \$3.00 to \$4.00 per week.

TEXT-BOOKS.

ANATOMY.—Frey's Histology, Heath, Gray, Wilson, Quain.

PHYSIOLOGY.—Dalton, Flint, Foster, Carpenter.

CHEMISTRY.—Attfield, Witthaus' Manual.

MATERIA MEDICA AND THERAPEUTICS.—Bartholow, H. C. Wood
U. S. Dispensatory, Ringer.

PRACTICE OF MEDICINE.—Roberts, Bristowe, Flint, DaCosta's
Diagnosis.

PATHOLOGY AND PATHOLOGICAL ANATOMY.—Wagner, Green,
Rindfleisch, Cornil and Ranvier.

SURGERY.—Gross, Bryant, Erichsen, Ashurst, Bilioth.

OBSTETRICS.—Lusk, Playfair, Cazeaux, Barnes on Obstetric Oper-
ations, Barker on Puerperal Diseases.

DISEASES OF CHILDREN.—Smith, Vogel.

DISEASES OF WOMEN.—Thomas, Mundé's Minor Gynecology,
Barnes, Peaslee on Ovarian Tumors.

MEDICAL JURISPRUDENCE.—Ordronaux, Taylor.

 Those desiring further information, may address Dr. C.,
P. FROST, *Dean*, Hanover, N. H.

REPORT OF DELEGATES.

MR. PRESIDENT AND FELLOWS:

In accordance with the usual custom your Delegates visited Dartmouth College Nov. 12, 1883, and attended to their duties as examiners of the class of 1883. We found the largest class in the history of the institution, present for examination, some forty-seven presenting themselves, of which number forty, having passed a satisfactory examination, were awarded diplomas.

Your Delegates arrived in Hanover about 3, P. M., and were continuously busy till the close of the exercises on the evening of Nov. 13, 1883.

In this connection we wish to recommend that more time be given the Delegates in their examination, one day and a half not being sufficient to examine such a body of men and do every man justice, the allowance of time is no greater for a large class, like the present, than for a small one of less than half the number, in our opinion the length of time should correspond to the size of the class, and thus equalize matters, so that the Delegates should not be obliged to do anything in a cursory or hurried manner.

We found that some of the class could satisfy us of their fitness in a few minutes while others required considerable time in order to thoroughly test them and if the Delegates could take the time for such inquiry, justice would seem to be meted out to those who are slow of speech. We found evidence on all sides of the continued prosperity of the College. In closing we wish to thank the President and Faculty for courtesies extended.

ABEL P. RICHARDSON, M. D. } *Delegates from*
HENRY M. FRENCH, M. D. } *N. H. Med. Society.*

TO THE VERMONT STATE MEDICAL SOCIETY:

The undersigned, appointed, in behalf of the Vermont State Medical Society, a committee to attend the examination of the graduating class, at Dartmouth Medical College, for 1883, have the honor to report: that in connection with a similar committee from the New Hampshire Medical Society, they attended to their duties on the 12th and 13th of November last.

The candidates for graduation, forty-seven in number, having previously been examined in writing by the different professors of the College, were now questioned orally by the members of the two committees. About 15 per cent not passing satisfactory examinations were rejected, the remainder showing themselves well grounded in the fundamentals of the medical profession, obtained their diplomas, and your committee considers them eligible for membership in this Society, without further examination.

Your committee takes much pleasure in bearing witness to the thoroughness of the examinations at Dartmouth, and the cordial relations existing between the Faculty and the State Medical Societies of New Hampshire and Vermont.

HENRY JANES, M.D., } *Delegates from*
DEANE RICHMOND, M.D., } *Vt. Med. Society.*

LIST OF GRADUATES, 1883-4.

Orange Henry Adams,	<i>New Hampshire.</i>
Joseph Henry Akers,	<i>Massachusetts.</i>
William Alfred Baribeault,	<i>Massachusetts.</i>
John Franklin Benjamin,	<i>Maine.</i>
Edwin Hamilton Bidwell,	<i>Connecticut.</i>
Robert Michael Birmingham,	<i>New Hampshire.</i>
Warren Perkins Blake,	<i>New Hampshire.</i>
Walter Irving Blanchard,	<i>New Hampshire.</i>
George Albert Blodgett,	<i>New Hampshire.</i>
Leavitt John Cain,	<i>New Hampshire.</i>
Willie George Cain,	<i>New Hampshire.</i>
Edgar Augustus Clark,	<i>New Hampshire.</i>
Levi Clark,	<i>New Hampshire.</i>
Israel Putnam Dana,	<i>Vermont.</i>
Horace Swift Davis,	<i>Ohio.</i>
Seth Newton Eastman,	<i>Vermont.</i>
Charles Cartlidge Godfrey,	<i>Connecticut.</i>
Clifford Elroy Higgins,	<i>Massachusetts.</i>
Oscar William Hodgdon,	<i>New Hampshire.</i>
Perley Taylor Kierstead,	<i>New Brunswick.</i>
James Andrew Leet,	<i>New Hampshire.</i>
Henry Lescadre,	<i>New Hampshire.</i>
George Edward Livermore,	<i>Massachusetts.</i>
Frank Samuel Lovering,	<i>New Hampshire.</i>
John Lomey McGregor,	<i>New Hampshire.</i>
Sumner Davis Marden,	<i>New Hampshire.</i>
Edward Engleton Moore,	<i>Illinois.</i>
Louis Edward Niles,	<i>Vermont.</i>
George William Nutter,	<i>New Hampshire.</i>
Frank Anaclet Payan,	<i>Massachusetts.</i>
Joseph Henri Pitman,	<i>New Hampshire.</i>
Joseph Henry Potts,	<i>Massachusetts.</i>
William Richardson,	<i>New Hampshire.</i>
George Harrison Saltmarsh,	<i>New Hampshire.</i>
Charles Alvan Stark,	<i>New Hampshire.</i>
Louis Edward Tieste,	<i>Indiana.</i>
Stephen Vittum,	<i>New Hampshire.</i>
Lowell Franklin Wentworth,	<i>Massachusetts.</i>
Frank George Wheatley,	<i>Vermont.</i>
Francis Fremont Whittier,	<i>Maine.</i>

CALENDAR.

1884.

- June 23. Monday, Examination for Degrees.
July 30. Wednesday, Lectures begin.
Nov. 8. Saturday, Lectures end.
Nov. 10. Monday, Examination by Delegates.
Nov. 11. Tuesday, Graduating Exercises.
Dec. 10. Wednesday, Recitation Term begins.

1885.

- June 20. Saturday, Recitation Term ends.
